EWD - Electronic Condensate Drains

COMPLETE,
EASY TO INSTALL AND
VERY ECONOMICAL

Atlas Copco

The range of EWD electronically controlled condensate drains is synonymous with safe, dependable and economical condensate management.

The intelligent drain function monitors condensate build-up with liquid level sensors and evacuates the condensate only when necessary, thus avoiding wastage of compressed air and giving considerable energy savings.

The EWD drain device offers security and confidence, enabling you to solve all condensate discharge problems even with heavily contaminated systems.

A wide range of different EWD drains is available for oil contaminated condensate and also may be provided with additional hard coating for use with oilfree and aggressive condensate.

- Level sensing type
- Zero air loss
- LED Display
- Plug & Play

Type	Max. compressor capacity ⁽¹⁾		Max. dryer capacity ⁽¹⁾		Max. pressure		Dimensions						Weight
